Italian — native

English — intermediate (B1–B2)

EDUCATION

Degree in Economics and Marketing
Università di Parma

Technical high school diploma in Surveying
ITG Carlo D'Arco

NOW

Generative art
Designing creative workflows in Midjourney, from first concept to finished series.

AI at work
Exploring how AI can make analysis, decisions and processes more effective.

My website
Built from scratch with Claude Code, with no prior coding experience.

PROFILE

Transport and logistics professional with 8+ years' experience across operational planning, carrier negotiation and sales management. Combines hands-on knowledge of how freight actually moves with a commercial, numbers-driven mindset, backed by a degree in Economics and Marketing. Currently exploring how AI can make analysis and decision-making faster and sharper.

EXPERIENCE

Logistics Planner — Feb 2022 – present
Gruppo Mauro Saviola Srl

Plan daily outbound shipments of recycled wood panels for the furniture industry to customers across Italy and worldwide, working closely with the back-office team. Negotiate rates with road and intermodal carriers, maintain benchmark rate cards and source new transport partners. Ran ocean freight tenders covering around 20 non-EU lanes: gathered bids from roughly six forwarders, assessed their service levels with the back office and awarded each lane on the balance between service and cost per container. Use SAP for internal processes and Transporeon for spot auctions, tenders and load allocation.

Sales Manager — Jan 2021 – Jan 2022
Sogema Group Srl

Set the customer acquisition and retention strategy and led the team, traffic office included. Managed a multi-sector client portfolio for non-perishable, non-hazardous freight and won new accounts. Produced the transport office's monthly reporting: trips per client, brokerage margins, own-fleet and driver costs, and fleet management.

Sales Representative — May 2020 – Jan 2021
Sogema Group Srl

Managed and retained client accounts, handling customer requests and sales administration. Built relationships with transport suppliers and prospected for new business. Contributed to the transport office's monthly reporting.

Transport Planner — Jul 2018 – May 2020
Sogema Group Srl

Ran the freight brokerage desk: bought capacity from third-party hauliers and sold it on to clients, planning transport around sales and in coordination with the in-house fleet. Scheduled articulated-truck traffic in compliance with EU drivers' hours rules.

EARLIER EXPERIENCE

Sales Administrator · Ditta individuale Bresciani Paolo — 2016 – 2018
Supported sales with customers and suppliers; assembled water-cooled MIG welding torches.

Sales Assistant · Supermercati Tosano — 2013 – 2016
Handled department orders and returns, product displays, till operations and end-of-day cash-up.

Seasonal Toll Collector · Autostrade del Brennero SpA — 2010 – 2012
Summer work to fund my university studies.
