NOW

Generative art
I design creative workflows with Midjourney, from idea to finished series.

AI at work
I study how artificial intelligence can make analysis, decisions and processes more effective.

My website
I built it from scratch with Claude Code, with no prior coding experience.

PROFILE

Logistic planner with a degree in economics and marketing, and the curiosity of someone who always wants to understand how things work. From transport management to sales strategy, all the way to AI applied to work. Proactive, curious and competitive.

EXPERIENCE

Logistic Planner — Feb 2022 – present
Gruppo Mauro Saviola Srl

- I plan daily shipments of sales orders for Italy and abroad, working closely with the back office.
- I coordinate and optimise ocean freight tender rates.
- I negotiate with road and intermodal carriers, manage reference rate cards and scout new transport partners.

Sales Manager — Jan 2021 – Jan 2022
Sogema Group Srl

- I defined customer acquisition and retention strategies while leading my team.
- I managed relationships with transport suppliers and reference rate cards.
- I owned the monthly reporting of the transport office.

Sales Representative — May 2020 – Jan 2021
Sogema Group Srl

- I handled customer retention and sales administration.
- I developed supplier relationships and prospected new clients.

Traffic Coordinator — Jul 2018 – May 2020
Sogema Group Srl

- I coordinated the fleet and drivers' driving and rest times.
- I planned articulated-truck traffic and managed the buying and selling of loads.
